

New Source Review newspaper advertisements for construction permit applications, January 13, 2005. The following public notices have been published in the newspapers listed below each advertisement. These newspaper advertisements for construction permit applications were published on one of the following dates: January 11, January 12, or January 13, 2005. Public notices are generally published every two weeks. The previous publication of public notices was December 21 – 23, 2004.

PUBLIC NOTICE

The Tennessee Division of Air Pollution Control (TDAPC) has received requests for construction of air contaminant sources as noted below. The proposed construction is subject to part 1200-3-9-.01(1)(h) of the Tennessee Air Pollution Control Regulations, which requires a public notification and 30-day public comment period. Interested parties may express their comments and concerns in writing to Mr. Barry R. Stephens, Director, Division of Air Pollution Control, 9th Floor, L & C Annex, 401 Church Street, Nashville, Tennessee 37243-1531 within thirty (30) days of the date of this notice. Questions concerning a source may be addressed to the assigned Division personnel at the same address or by calling 615-532-0554.

Individuals with disabilities who wish to participate should contact the Tennessee Department of Environment and Conservation to discuss any auxiliary aids or services needed to facilitate such participation. Such contact may be in person, by writing, telephone, or other means, and should be made no less than ten days prior to the end of the public comment period to allow time to provide such aid or services. Contact the Tennessee Department of Environment and Conservation ADA Coordinator, 12th Floor, 401 Church Street, Nashville, TN 37243, 1-866-253-5827. Hearing impaired callers may use the Tennessee Relay Service, 1-(800)-848-0298.

The applicant is Nissan North America, Inc.- Decherd Powertrain Assembly Plant with a mailing address of 983 Nissan Drive, Smyrna, TN 37167. They seek to obtain an air contaminant permit (Division identification number: 26-0091-10/57790) for construction of a Forging Expansion at Warren Chapel Road, Decherd, TN 37324. The proposed operation would consist of a 6,500-ton forging and trimming press and a 400-ton twist press used to manufacture steel crankshafts. The proposal also includes various insignificant changes to the crankshaft line, the die manufacturing area, and the die maintenance area. A wet scrubber would be used to control air contaminant emissions from the presses. There would be physical construction. Regulated air contaminants emitted from this facility would increase slightly. Ms. Angela Pitcock is the assigned Division person.

For the Franklin County "Herald-Chronicle"--published once on or before Thursday, January 13, 2005.

The applicant is Forcum-Lannom, Inc. with a mailing address of P.O. Box 1466, Dyersburg, TN 38025. They seek to obtain an air contaminant permit (Division identification number: 48-0033-01/57875) to construct a Concrete Batch Mix Operation on Proctor City Road, Tiptonville, TN 38079. This proposed operation would consist of cement receiving equipment, storage piles, weigh-batcher, cement storage silos, and associated equipment and materials for producing concrete mix. Because of the amount and type of emissions, the use of pollution control equipment is not proposed, however, the silo vent has fabric filter control. There would be physical construction. Regulated air contaminants would be emitted from this source. Mr. Robert Benjamin is the assigned Division person.

For the "Lake County Banner"--published once on or before Thursday, January 13, 2005.

The applicant is Simply Shutters, Inc. with a mailing address of 1539 Charleston Ct., Murfreesboro, TN 38130. They seek to obtain an air contaminant permit (Division identification number: 75-0588-01/57723) for a Surface Coating Operation located at 1501 N.W. Broad St., Murfreesboro, TN 37129. This existing operation consists of a spray booth for prime and finish coating of plantation shutters. Exhaust filters are used for pollution control. There would be no physical construction. Regulated air contaminants are emitted by this source. Mr. Manir Ahmed is the assigned Division person.

For the Rutherford County "Daily News Journal"--published once on or before Thursday, January 13, 2005.

The applicant is National Coal Corporation with a mailing address of 8915 George Williams Road, Knoxville, TN 37923. They seek to obtain an air contaminant permit (Division identification number: 76-0054-01/57770) for modification of a Coal Processing and Loading Facility located at Smoky Junction on Norma Road, Norma, TN 37714. This existing operation consists of conveyors, a crusher, stockpiles, loading points, and access ways. Process enclosure for the crusher and wet suppression are used as control measures for particulate emissions. The proposed modification is to increase process input. There would be no physical construction. Regulated air contaminants are emitted by this source. Emissions of particulate matter would increase. Mr. R. Chuang is the assigned Division person.

For the "Scott County News"--published once on or before Thursday, January 13, 2005.

The applicant is The Lord's Table, Inc. with a mailing address of 390 Sewell Drive, Sparta, TN 38583. They seek to obtain an air contaminant permit (Division identification number: 93-0078-01/57843) to modify a Surface Coating (dipping) Operation located at the same address. This existing operation consists of a dip tank. The requested modification is to add spray-coating capability. Exhaust filters would be used to control particulate emissions. There would be physical construction. There would be an increase in the regulated air contaminants emitted by this source. Mr. W. Medley is the assigned Division person.

For the White County "Sparta Expositor"--published once on or before Thursday, January 13, 2005.
